

Document title	Authentication and Password Policy
Document ID	SLP-POL-003
Version	1.0
Classification	Internal
Owner	ISMS Manager
Approved by	Peter Kováč, Managing Director
Date	6 March 2026

DISCLAIMER: SLOVPACK s.r.o. is a fictional company created for portfolio purposes. All data, names and scenarios are invented.

1. Purpose This policy defines binding rules for authentication and password management at SLOVPACK s.r.o., in support of the Information Security Policy (SLP-ISMS-003). It replaces Directive 2/2019 on computer passwords.

2. Scope All employees, contractors and third parties accessing SLOVPACK information assets.

3. Policy statements

- Passwords must be at least 12 characters long; passphrases are recommended. Periodic forced changes are not required; a change is required only on suspicion of compromise.
- Multi-factor authentication is mandatory for all Microsoft 365 accounts, VPN access, the PayWell payroll system and all administrative access.
- Shared accounts are prohibited. The shared warehouse (WMS) accounts are converted to individual accounts by 15 May 2026.
- Passwords must not be written on paper or displayed on monitors. The approved storage for passwords is the company password manager.

4. Responsibilities Policy owner: ISMS Manager. Enforcement: IT Administrator. All employees must comply and report violations.

5. Exceptions Exceptions require written approval by the ISMS Manager and are recorded with an expiry date.

6. Review Reviewed annually or after significant change.
