DISCLAIMER: SLOVPACK s.r.o. is a fictional company created for portfolio purposes. All data, names and scenarios are invented.

1. Purpose This policy defines binding rules for backing up and restoring SLOVPACK s.r.o. data, in support of the Information Security Policy (SLP-ISMS-003).

2. Scope All employees, contractors and third parties accessing SLOVPACK information assets. The policy covers the ERP databases, file server, e-shop (via provider) and Microsoft 365.

3. Policy statements

- Backups run daily (incremental) and weekly (full). Retention is 90 days for operational backups and 5 years for annual archives.
- The 3-2-1 rule applies: at least 3 copies, on 2 media types, with 1 copy off-site. An immutable cloud tier is used to provide resilience against ransomware.
- Backup restore tests are performed quarterly by the managed service provider, with a written report reviewed by the ISMS Manager.
- Backup failures are reported within 24 hours.

4. Responsibilities Policy owner: ISMS Manager. Enforcement: IT Administrator. All employees must comply and report violations.

5. Exceptions Exceptions require written approval by the ISMS Manager and are recorded with an expiry date.

6. Review Reviewed annually or after significant change.
